SEI MANGKEI SPECIAL
ECONOMIC ZONE

HELLO FROM THE DIRECTOR!

STRIVING TO PRESENT INDUSTRIAL ESTATE THAT EMPOWER COMMUNITIES AS WELL AS BUSINESS GROWTH; THAT'S OUR COMMITMENT

Indonesia is well known for its abundant and rich variety of natural resources. This has become the key strength point for Indonesia to overcome its upcoming challenges, primarily in global competitiveness. As we are also undergoing rapid urbanization and growth, our strength in resources, plus the expanding population, if synergizely combined, can boost Indonesia's chances to become the seventh-largest economy powerhouse in the world. However those strenght point would not be useful without the existence of infastructure and land development inside Indonesia, which both of it are essential to drive the economy towards growth.

Kawasan Industri Nusantara was born to play a vital role in infrastructure and land development, primarily in the Industrial Estate sector. Even we are part of the new player in the industrial estate services in Indonesia, our commitment, combined with skill and spirit to achieve growth, will become our capital to success in contributing FDI as well as economic growth in Indonesia.

Since 2017, we have been trusted to manage the Sei Mangkei Special Economic Zone, the first SEZ in Indonesia. By collaborating with investors, goverment, and communities, we will strive to achive our goal; delivering sustainable contributions to the economic growth via FDI escalation in Sei Mangkei SEZ

**NEVER STOP
CONTRIBUTING TO
GROWTH AND
ADVANCEMENT**

V.T Moses Situmorang

DIRECTOR

OVERVIEW

PT KAWASAN INDUSTRI NUSANTARA

PT Kawasan Industri Nusantara (KINRA) is the subsidiary company of PT Perkebunan Nusantara III (persero), which specifically operate in Industrial Estate and Property sector. SEI MANGKEI SPECIAL ECONOMIC ZONE

Sei Mangkei SEZ is the first Special Economic Zone in Indonesia. Inaugurated on 27 January 2015, Sei Mangkei SEZ is the largest industrial estate in North Sumatra with a total area of 1933.8 hectares. Strategically located at the gate of Mollaca Strait, and centrally located in the center of raw materials for Palm Oil & Rubber in **Simalungun Regency**, making the Sei Mangkei SEZ the most appropriate Industrial area for industrial businesses to invest, especially industries which operates in the Palm Oil & Rubber sectors

Sei Mangkei SEZ is also appointed as the Rubber City of Indonesia under the supervision of IMT-GT, providing added value to the SEZ Sei Mangkei as a prospective industrial area in Indonesia, especially for the downstream rubber sector.

GREEN ZONE INDUSTRY

As part of the commitment to fulfill the Paris Agreement and World SDG's program, under the supervision of Ministry of Industry and Global Green Growth Institute (GGGI), Sei Mangkei SEZ was established to be a green zone industrial estate in Indonesia. All activities should refer to three main set of standards of eco-industrial park; low carbon content, clean product, and contain the element of 3R (reduce, reuse, recycle) in the operation.

TOTAL AREA: 1933, 8 HA

ESTIMATED INVESTMENT 2031:

- INFRASTRUCTURE: ID5 5.1 TRILLION
- INVESTOR: IDR 129 TRILLION

ECONOMIC IMPACT:

INCREASED OUTPUT OF IDR 92,1 TRILLION TO NATIONAL ECONOMY

SEI MANGKEI SEZ

1933,8 HA READY TO INVEST

100% Clean & Clear

No investment worries. all of the existing land is currently owned by PT Perkebunan Nusantara III (Persero) as the holding company of PT Kawasan Industri Nusantara under the Right to Manage Certificate (HPL No 1/ 2014) registered in the Land Department Of Indonesia.

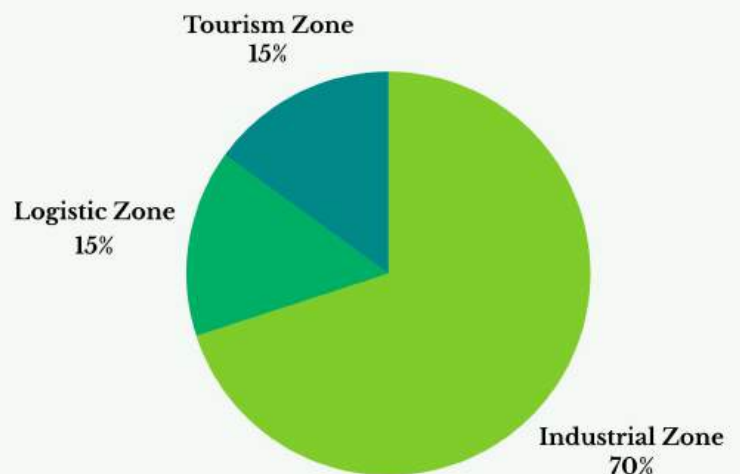

inside the estates, all of the main utilities (electricity, clean water, waste water treatment, gas) plus the supporting infrastructure are ready to be in service for the investor in needs. Compared with the other 15 SEZ in Indonesia, Sei Mangkei SEZ become the top tier on the list for the most ready to invest SEZ in Indonesia.

- Sei Mangkei SEZ is situated close to the Kuala Tanjung Seaport. A special seaport for the Sei Mangkei SEZ logistic purposes. Both infrastructure are located in the Gate of Mallaca Strait, thus become a prospect for the future international hub.
- Rich natural resources surrounding the industrial estates (Palm Oil & Rubber)
- Existence of three fundamental connectivity: Toll Road, Train, and Seaport
- Highly competitive wages and large supply of labor
- Ease of license and permits processing due to the existence of Administrator, who provides all type of license in one single service.

INDUSTRIAL ESTATE ZONING

Sei Mangkei SEZ categorize its design into 3 zones, Industrial Zone, Tourism Zone, and Logistic Zone. Inside Industrial Zone lies 5 type of zoning based on the type of production, which consist of: Various Industry Zone, Palm Industry Zone, Rubber Industry Zone, Supporting Production Zone, and Electronic Industry Zone.

In Tourism Zone, there will be a Golf Park, Hotels, and MICE. Situated in Logistic Zone are a Warehousing and a Dryport to support tenant logistic needs .
